

# Technical Seminar: Polymer Technologies for Industrial Maintenance

Hotel ibis Styles Budapest Airport, 14th June 2018, 10am - 4pm

## Session 1:

### Protection of rotating equipment, tanks and pressurised vessels against erosion and corrosion

Learn how pit filling and protection techniques can extend the service life of equipment. See some of the testing in action and case studies illustrating savings made in CAPEX and OPEX.

## Session 2:

### Composite Repairs

This session will present composite technologies, including cold bonding and composite reinforcement. These methods of reinforcement are used more and more to consolidate straight pipes, pipe elbows, or even storage tanks.

## Session 3:

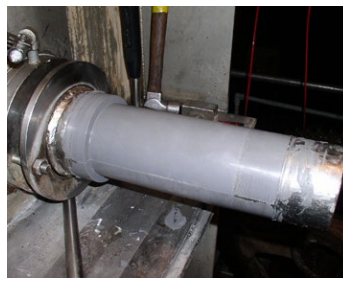

### Mechanical repairs

In this session, we will see how precise rebuilding and alignment can be performed using fast and simple repair methods. From shafts and housings to shimming, 100% solids materials continue to offer a lasting solution.

## Session 4:

### External Corrosion Protection

External protection of installations remains a major problem in the industry. This session will focus on the protection under insulation and will highlight surface-tolerant coatings.

In partnership with:

# Polymer Technologies for Industrial Maintenance

Hotel ibis Styles Budapest Airport, 14th June 2018, 10am - 4pm

## Visit objectives

- Learn more about on-site industrial equipment repair and protection opportunities using polymer solutions.
- Find out how the use of cold-curing composite technologies can reduce downtime and extend equipment life.
- Learn more about international standards associated with pipe and tank reinforcement.
- Discover industrial maintenance cases studies from major local and global asset owners and operators.
- See the latest innovations in polymer technology.

## Who is going to attend?

The event is targeted at engineers, maintenance managers and those in charge of the operation and maintenance of equipment or structures in the Power, Petrochemical, Water treatment and Oil and Gas sectors among others.

## RSVP

Register by contacting Natalie Carpenter at [marketing.uk@belzona.com](mailto:marketing.uk@belzona.com). Please note that spaces are limited and early booking is recommended.

## Certificates of attendance

Each delegate will receive a pack containing related literature and a certificate confirming their participation in the seminar. Presentations and photos from the day will be emailed afterwards.

## Additional information

Registration for the workshop is by invitation only. Several places can be booked for staff representing the same company. There are no registration fees, the seminar is free to attend. Lunch and refreshments will be provided. Please advise us on any special dietary requirements.

Dynamic presentations

Interactive demonstrations

Lively discussions

Networking lunch

Snacks & refreshments
